

Product description

Zettex High Wax Polish is a premium wax polish based upon a blend of naturally occurring waxes. Contains both Carnauba and Bees Waxes for optimum durability and shine.

Product benefits

- Contains Carnauba Wax for durability and shine – nature's hardest wax.
- Contains Bees Wax for improved shine and easy spreading.
- High gloss finish.
- Non-abrasive.
- Easy spray on / wipe off application, minimal effort required.
- Highly water resistant.
- Silicon free.

Applications

You can use the Zettex High Wax Polish on any painted, wooden or metallic surface to improve gloss and provide a water-resistant barrier. Also suitable for use on Chrome and plastic trim. Please don't use it on any surface where slip / low friction would cause a hazard.

Ensure surface is clean and dry. Shake can thoroughly before use. Hold upright and spray from a distance of 20-30cm. Allow to haze before buffing to a high shine with a soft clean cloth. Do not apply to hot surfaces as this can cause the polish to dry too quickly and lead to streaking.

Packaging

- Aerosol 500 ml.

Colour

- Transparent

Safety recommendations

- Please read our MSDS before using this product.

Technical data

Properties	Specification
Appearance	An off-white creamy liquid
pH	7-9
Specific Gravity	0.936-0.966 at 20 degrees
Flammability, as supplied	Extremely flammable, flashpoint below -20
Composition Data, as supplied	An aqueous emulsion of carnauba wax, bees wax and silicone polymer with low aromatic white spirit and mixed butane/isobutane/propane propellant
Service Temperature (Continuous)	Designed for use at ambient temperature
